MEDIUM ROLLER SYSTEM

& SIRIOS™

# MEDIUM ROLLER BLIND

Choose Sirios when you need shading that performs brilliantly, looks great and does not intrude into your window openings.

## OVERVIEW

- Compact and reliable system
- 7 year warranty
- Sizes up to 3m wide, 3m drop, 6m<sup>2</sup>
- Available with compact headbox or fascia

## SYSTEM DETAILS

Sirios roller blinds are made for small to medium size windows and when a smart, unobtrusive look is required. Fixing brackets are small and discreet.

Sirios shades are available with not only low voltage, solar-powered and battery motors, but they are also one of the most compact 240V motorised blinds on the market. Manual operation is available via chain, crank handle or slow-rise spring. Multiple blinds can be coupled together.

Side guidewires can also be added. Exposed aluminium or concealed hembar options complete the look.

## USES & APPLICATIONS

Compact enough to be easily concealed within a ceiling pocket or pelmet, Sirios is equally comfortable on show, with its designer bracket options making a striking design statement.

The array of finishes on offer, including the ability for hardware to be powder coated to any RAL colour, allows you to customise Sirios to get the look you want.

**DESIGNER BRACKETS**

- Optional metal designer brackets
- Pearl Chrome or Chrome finish
- Standard bracket is steel with bracket cover

**EXTRUDED ALUMINIUM ROLLERS**

- Strong roller tubes to minimise deflection
