

&CENTOR S4™  
SIDEWAYS PULLING BLIND SYSTEM

# &CENTOR S4™

## SIDEWAYS PULLING BLIND SYSTEM

With the ability to cover an incredible 28m<sup>2</sup> in a single system, the Centor S4 screens are outstanding performers for your shading requirements

### OVERVIEW

- Fingertip operation
- 5 year warranty
- Includes headbox, side boxes and cill runner
- Sizes up to 9m wide, 3.2m drop, 28m<sup>2</sup>

### SYSTEM DETAILS

The award-winning S4 Screen allows homeowners with large doors to enjoy the luxury of inside-outside living without the traditional compromises: insects, glare and loss of privacy. Designed to fit nearly any door – folding, french or sliding – delivering unparalleled engineering.

Operating with just a fingertip, the unique load balancing technology allows screens and shades to glide smoothly across the entire opening and effortlessly stop at any desired position.

When not in use, the screen or shade retracts discreetly into the frame, removing visual distractions to the view outside while also protecting it from damage, dust or dirt.

UMBRA & YOU

#### Finger-tip operation

Engineered to glide  
from any height

#### Unobtrusive

Screens are there when  
needed & hidden when not

#### Replaceable

Shades can be replaced  
should tastes change

#### Made to order

Custom-made to your  
specific requirements

## Technical benefits

- Fabrics are fully retained within the frame — with no gaps — to allow total control of insects, sunlight and privacy.
- Screen and shade fabrics are held securely in place by top and bottom tabs, preventing screen blow-out — even in a breeze.
- S4 can be mounted on the inside or outside — drainage holes are added to the sill for externally mounted systems.
- Sill cover is quick and easy to remove to make cleaning trouble free.

# Shades

## Interior shades

Luxury shade fabrics are available in light-filtering and blackout options for systems mounted on the inside of the opening.

## Sun-filtering shades

Perfect for reducing glare, solar heat gain and fading. Can be fitted internally or externally but a popular choice for outside given its hard-wearing, easy-clean qualities.

## Insect screens

Durable polyester/PVC mesh is available in two different weave styles to keep even the smallest insects outside.

### Standard weave

Keeps insects like moths, flies and mosquitoes outside, while standing the test of time with a durable polyester/PVC mesh construction.

Openness: 46%

### Tight weave

Made from the same durable material as our standard weave but features a smaller aperture to protect against tiny insects like midges.

Openness: 37%

# Configurations

The S4 Screen & Shade system is available in four configurations:

### Single

A single screen or shade that extends from one side of the frame to cover the full width of the opening.

### Combination

A combination of two fabric types — both covering the full width — such as a screen from the left & a shade from the right.

### Double

Two screens or shades (in the same fabric option), which meet at any point along the opening.

### Corner

Two screens or shades (in the same fabric option), meet at a 90-degree angle opening for post-less corner openings.

# Aluminium frame

S4 is constructed from durable aluminium. The frame can be powder-coated in one of our popular colours ([centor.com/screens](http://centor.com/screens)) or customised to colour match existing doors and windows<sup>3</sup>.

## Frame size

Specially designed for large doors, S4 can span 2900mm high and 9013mm wide.<sup>1</sup>

Fabric type	Overall frame width <sup>1</sup>				Overall frame height	Install location	
	Single 	Combo 	Double <sup>2</sup> 	Corner 		Inside	Outside
Standard weave mesh	1015 - 4611mm	1015 - 4676mm	1015 - 9013mm	1061 - 4591mm	815 - 3200mm	✓	✓
Tight weave mesh	1015 - 4197mm	1015 - 4262mm	1015 - 8185mm	1061 - 4177mm	815 - 3200mm	✓	✓
Boston, blackout	1015 - 2532mm	1015 - 2597mm	1015 - 4855mm	1061 - 2512mm	815 - 2900mm	✓	
Boston, light-filtering	1015 - 4197mm	1015 - 4262mm	1015 - 8185mm	1061 - 4177mm	815 - 2900mm	✓

Sun-filter	1015 - 4543mm	1015 - 4608mm	1015 - 8877mm	1061 - 4523mm	815 - 3200mm	✓	✓

<sup>1</sup> Fabric widths are established by fabric thickness. Variations in fabric thickness may mean the maximum width can not be achieved. In these cases we offer an alternative color or fabric type or an extended lead time to allow fabric to be resupplied from the mill.

<sup>2</sup> All screens over 5910mm (232 5/8") will require frame joiners to the head and sill.

D-S-UK-JULY22\_A)

## Complementing systems

**S4 Corner Screen**

Insect screens &/or shades for post-less doors or windows

**S2 Screen**

A horizontally retractable insect screen for smaller doors or windows
