

*Unlimited Solutions
For Your Windows*

ALL TYPES OF WINDOW TREATMENTS UNDER ONE ROOF

Over 15 000 Fabrics & Designs

Welcome to Lex Blinds

Established in 2013

Offering premium quality made-to-measure products is our way to our clients' hearts and homes.

That's why each of our products is handcrafted with love and care – by artisans who are devoted to excellence.

The biggest part of our products are handmade in the UK.

We offer luxury products at affordable prices.

*Every home - just like
its owner - is unique.*

Where
beauty meets
& innovation
functionality

You are always
welcome
to visit our
beautiful
showroom!

Come to our showroom and browse our entire range of window treatments under one roof.

LEX BLINDS professional and experienced team will help you find inspiration for your window treatments and deliver the best solution for your home or business.

Specialist Services

Request a free in-home appointment

We offer specialist consultations in the comfort of your own home. Our advisors will bring samples and advise you on the latest window treatment trends. You will discuss ideas, different design options, functionality, and budget – to find the ideal solution for your interior.

Appointments available during normal business hours, evenings and weekends.

Measuring, manufacturing and installation

Our design consultants will bring samples and advise you on the latest window treatments trends. Our experts will measure each element of your windows to guarantee a perfect fit.

During the production stage, we pay particular attention to every detail. Our team of skilled, dedicated artisans only use the highest quality materials. The result is a beautiful, premium quality product.

Our skilled and expertly trained fitters will install our premium quality products with great care and precision.

Aftercare service

We believe in our products – and we want to give you a peace of mind. Therefore, we provide a 5-year guarantee and aftercare service. If a product malfunctions due to manufacturing or fitting errors, we will replace it – no questions asked!

Also, you don't have to worry about the item getting lost or damaged on the way to you. If that happens, we'll replace it with a new one.

Lex Blinds Price Promise

We guarantee that we won't be beaten on price! We promise that if you find the same blind in the same size and with the same specification and service (i.e., free home appointment, measuring, manufacturing, and installation) at a lower price, we will price match it and refund the difference!

Roller Blinds

Indoor window treatments

Our made-to-measure roller blinds offer the perfect blend of comfort and functionality. They provide maximum protection from direct sunlight – whether used as a single element, or combined with traditional curtains.

With more than 1000 different fabrics to choose from, we have blinds to compliment any décor!

Pleated Blinds

Indoor window treatments

Our pleated blinds have a unique feature – they can be moved from the top down or the bottom up! That makes them a fantastic option for those who want plenty of natural light without giving up their privacy.

The blinds are readily adaptable to a variety of window shapes and dimensions – large, small, round, trapeze, triangular, arched and other! These features – as well as our unique installation technology – make this product ideal for conservatories.

We have a wide range of fabrics (linen, polyester, natural fibre), designs and colours to choose from – so you're guaranteed to find something you'll absolutely love!

We have more than 400 colours and designs, so finding the perfect match for your interior will be easy.

Day & Night Blinds

Indoor window treatments

Day & Night blinds are a stylish, practical and modern window treatment solution.

Featuring both transparent and opaque panels, they provide complete light control and allow you to find the right level of privacy – making the blinds ideal for both day and night.

We have over 100 stylish colours and 40 unique, trendy patterns to choose from – an ideal match for your interior is guaranteed!

Blockout Blinds

Indoor window treatments

Get a better night's sleep with blackout linings and fabrics that reduce light levels. Blockout fabric does not create a full blackout blind, there will be a light strike at the edge of the blind. The blackout fabric is ideal for photo studios, conference rooms, children's rooms, or for people who work at night and need to catch some sleep during the day!

With more than 100 fabrics to choose from, there are blinds to compliment any interior!

We have ALL TYPES of blackout blinds including roller blinds, pleated blinds, roman blinds, curtains, and much more, all under one roof.

Eco Photo Roller Blinds

Indoor window treatments

Eco photo roller blinds – even more opportunities for exclusively stylish and unique windows! Choose from thousands of new patterns – and we'll make sure they perfectly fit your windows.

And if you'd like something even more unique, we can decorate your roller blinds with your own photograph or drawing. Just send us your desired picture and we will add it to your customised roller blinds.

Our fabrics have GREENGUARD GOLD and ECOLOGO quality certificates, which guarantee that they are safe to use even in sensitive environments, such as schools and healthcare facilities.

Wooden Blinds

Indoor window treatments

Our made-to-measure wooden blinds have been designed for those who appreciate the qualities of natural materials. They infuse interior spaces with comfort, elegance, and warmth – and provide excellent thermal insulation.

Blinds made of natural materials are unique in their beauty, practicality, and functionality, as they can be adjusted to even the most complex and unusually shaped windows.

We offer a wide range of wooden blind styles, making it easy to find the perfect match for your interior!

Vertical Blinds

Indoor window treatments

Vertical blinds provide an ideal window covering solution for large windows – as well as windows of unusual shapes.

These blinds are very versatile and are often used not only at residential homes, but also in commercial spaces like offices, stores, and medical institutions.

Reaching the desired level of light flow is particularly easy with vertical blinds – they can be turned to block out the sun without limiting the view outside the window.

You can also pick and mix the colours of your slats – so why not add a unique splash of colour to your interior? We offer textile or PVC vertical blind slats, as well as slats decorated with patterns.

PVC Vertical Blinds

Indoor window treatments

PVC (vinyl) vertical blinds are the latest expression of contemporary design in home or office interiors. They are highly practical, require little maintenance, and offer exceptional comfort – making them the ideal solution for clients who would like to spend less time on housework.

Lecluyse are PVC vertical blinds manufactured in an ultra-modern and green extrusion plant. The blinds are ideal for large windows and sliding doors. With their distinctive features, they provide a universal window treatment solution.

At Lex Blinds, we are always expanding our product range by adding the most modern, practical, and premium quality window treatments that satisfy our clients' needs – and provide ideal window covering solutions for their homes.

Mirage Blinds

Indoor window treatments

It's the perfect combination of the look and feel of a curtain – and the versatile functionality of a vertical blind. Ideal for larger windows and bi-folding doors, Mirage blinds provide a unique way to cover your windows while helping you make the most out of the natural light.

The unique fabric vanes – a combination of a soft voile and traditional fabric panel – protect your privacy while letting in as much light as you need. This means that you can create a private and peaceful space without making your room look dark and dreary, nor compromising on style.

Venetian Aluminium Blinds

Indoor window treatments

Controlling the flow of natural light is particularly easy with Venetian blinds – whether you want to reduce natural light or block it out completely.

These blinds are fixed to the top part of the window frame, with hold down brackets attached at the bottom. The brackets hold the blind in place when the window or door is open.

Natural Leather Venetian Blinds

Indoor window treatments

Blinds handcrafted with natural leather having different qualities inside the same range. It is possible to find colour and behaviour variations due to the nature of the real leather. An eco-leather imitating many finishes, textures, gloss, and multicolor shapes, but mainly exclusivity.

This stylish blind provides effective shading and privacy for the interior of your home or other spaces. Almost every element of the blind can be customised, allowing for contrast ladders, ferrules, or even stitching on the leather blinds.

Choose to have the blinds finished with custom stitching in the colour of your choice, and opt for either guide wires or side tracks to keep the blinds taught.

Perfect Fit Blinds

Indoor window treatments

Perfect Fit provide a sleek and stylish window treatment solution.

Saving on energy bills has never been easier! The unique cell structure of Perfect Fit blinds is specially designed to trap air inside – helping you keep your home nice and warm in the winter – and cool in the summer.

A number one solution for UPVC windows, Perfect Fit blinds don't require any drilling. The installation process is easy – all you need to do is attach the blinds to the window frame. No need for holes and screws!

Perfect Fit blinds cover the whole window, so can be combined with blackout fabric to provide complete darkness in your room. Perfect Fit come in a wide range of different fabrics – so you're guaranteed to find a suitable option for your home.

Shutters

Indoor window treatments

Our bespoke window shutters are truly unique. Because they are made-to-measure, we can customise nearly every aspect to ensure they are perfect for your home.

We offer a variety of shutter styles for you to choose from – and our extensive assortment means that there are styles to match every decor.

Our shutters come in many styles: choose from full height shutters, bay window, cafe style, solid panels, tier on tier, tracked shutters and even unique shapes – meaning virtually any type/ shape of a window can have a shutter!

We have 40 colours to choose from – but we also make custom colour shutters. We also have colours with stained finishes. Decorate your windows with beautiful shutters and add value to your property while creating a home you can't wait to return to!

Roman Blinds

Indoor window treatments

Roman blinds are a practical and unique way to decorate your windows. They can be combined with curtains – or become a great alternative.

Instead of rolling up, the blinds fold, rising in neat sections towards the top. The higher the blind is raised, the more folds will be created – until it is fully open.

We offer a wide range of Roman blind fabrics and colours, so you will definitely find an ideal option for any window!

Curtains

Indoor window treatments

Lex Blinds is proud to offer not only a diverse collection of blinds but also a beautiful selection of elegant curtains!

Ask any designer, and they'll tell you that blinds and curtains should complement each other in any interior. Here at Lex Blinds, we have a wide assortment of made-to-measure curtains: blackout, eyelet, pencil pleat, pinch pleat, voile and thermal.

The outstanding quality of our products and the full range of colours and materials make our curtains a luxury detail for every home interior. For your convenience, you can choose from various manual or electric control options.

“Screen” Blinds

Indoor window treatments

Our “Screen” blinds are ideal for particularly bright and sunny rooms. They are designed to enhance the comfort and quality of your interior space, without blocking out natural light.

“Screen” blinds fabric provides solar protection while still allowing natural light to enter your home. The blinds have a screen effect and limit eye-straining glare, helping you create a lovely ambiance in the room.

“Screen” blinds are available as vertical and roller blinds.

REQUEST A FREE IN-HOME APPOINTMENT at 0800 788 0000 or visit www.lexblinds.co.uk

Blinds “Glasgard”

Indoor window treatments

Our blinds “Glasgard” are heat and sun resistant, helping you keep your rooms cool in the summer months. The blinds provide an excellent solution for reducing your energy consumption and costs.

The fabric reflects up to 84% of solar infrared radiation (IR) which we feel as heat, significantly reducing the cost of air conditioning in the rooms.

Blinds “Glasgard” are available as both vertical and roller blinds.

Benefits and features of “Glasgard” blinds:

- Reduce heat gain through windows by 90%
- Your view from inside is not blocked
- Remove glare from TV and computer screens

Child Safety

Make it safe

Lex Blinds is a proud supporter of the "Make it Safe" campaign, which aims to raise awareness of the potential dangers of looped cords among families with small children.

We ensure that all our curtains and blinds meet the European Standard (BS EN 13120), which strengthens the child safety elements. It is our job to ensure that the childhood of the little people in your house is safe and happy.

Our clients also get an additional child safety device – a "Safe Child" chain holder clip, which can be used with all our manufactured products with chains. The chain holder is attached to the window frame or the adjacent wall, this way making sure your little one can't get tangled up. It's an exceptionally safe and reliable way to protect your children from the risk loose blind cords pose.

The chain holder is also an aesthetically pleasing device, guaranteed to match any window.

Motorised Blinds

If you would like to completely eliminate blind cords from your and your loved ones' lives, then motorised blinds are the perfect solution.

Lex Blinds works to protect the safety and wellbeing of your little ones.

Awnings

Outdoor window treatments

Having a beautiful terrace or garden is a smart way to extend the space of your home.

Stylish awnings are a modern exterior detail, that will instantly add warmth and shelter to your terrace, transforming it into a cosy and comfortable space.

It isn't only about style – it's also a practical decision. An awning doesn't occupy much space and will work like magic in protecting you from rain as well as harmful UV rays. Another advantage – it will not take up too much space nor block out the light unnecessarily (for example, when it's not sunny).

We have plenty of different awning styles for you to choose from (e.g., full cassette, half cassette, basket, with LED lights and heaters, etc.) – as well as a full range of colours and fabrics to suit any exterior.

Pergolas

Outdoor window treatments

Pergola – a product that combines quality, aesthetics, and functionality. It'll decorate any home exterior, and add a touch of charm to your outside spaces.

We are proud to offer different variations of stationary summerhouses, which can be attached to your house or built separately.

Our pergolas are built using advanced technologies such as unique wind and sun resistant fabrics, and rainwater drainage systems.

If you wish to extend your outdoor season and create a separate space – we can cover its sides with partitions or outdoor roller blinds.

REQUEST A FREE IN-HOME APPOINTMENT at 0800 788 0000 or visit www.lexblinds.co.uk

Outdoor Roller Blinds

Outdoor window treatments

We can offer one of the broadest assortments of outdoor roller blinds in UK.

Our made-to-measure solutions have been praised by architects, workers in glass buildings, and individual homeowners. The unique products will not only provide more privacy and heat protection – but will also add charm and individuality to your home's exterior.

Outdoor roller blinds with a modern Screen fabric can block out up to 90 % of the sun. Compared to the internal solutions, Lex Blinds outdoor screen system can reduce the heat gain to as little as 15 %.

Our made-to-measure outdoor roller blinds perfectly fit different shapes, sizes, and non-standard windows. Whether you seek the best solutions for a standard flat or house, massive loft, or small and angled attic windows.

Outdoor Venetian Blinds

Outdoor window treatments

If you are looking to add a modern touch to your home's exterior and get reliable protection against the sun – then our outdoor venetian blinds are the right choice for you.

Just like classic venetian blinds, outdoor venetian blinds are designed to provide effective protection against the sun, and prevent your home from overheating.

Outdoor venetian blinds effectively block out heat and reduce direct sunlight – adjusting the angle of the slates is easy!

This makes our outdoor venetian blinds an ideal choice for spaces where you spend most of your day – offices, children's rooms, living rooms, etc.

Outdoor Roof Blinds

Outdoor window treatments

Lex Blind's outdoor roof blind is able to run on roof glazing of any slope thanks to its concealed tensioning system. The leadrail runs within U shaped side channels to ensure the electric blind runs perfectly square whilst also preventing any light leakage.

A range of mounting brackets allow installation to every type of glazed roof, whilst height adjustable brackets allow roof vents to be overcome. When retracted away, the full cassette casing neatly encloses the fabric ensuring a low maintenance solution.

Roller Shutters

Outdoor window treatments

Roller shutters are a modern exterior solution, which provides a triple benefit: energy and cost savings, sound isolation and enhanced safety. It is essential to not only choose a colour that matches the façade of the house – but also to pick a suitable shutter system and installation method.

Our shutters are made of steel and aluminium, so will not need maintenance for a long time. Plus, they can be easily cleaned!

Sun Control System – Lamels

Outdoor window treatments

Protect your home from the sun with our sliding or non-sliding sun control lamels! They are an innovative, widely applicable, durable and low-maintenance solution.

The colour can be customised to suit your home's exterior (RAL code).

They are widely applicable, durable and don't require any maintenance!

The lamels keep the room cool, as well as protect from rain, snow and wind.

Insect Screens

Outdoor window treatments

Insect screens will allow you to enjoy a pleasant breeze at night – without letting in any insects. We have a wide variety of screens, so there are options suitable for any window or door (including non-standard ones).

Choose from:

- Frame screens
- Roller screens
- Door screens
- Pleated insect screens

The screens can be mounted in many different ways to suit your requirements. Fitting and removing them is easy – as they are mounted on the window frame using rotating plates or magnets. They will not only protect your home from insects but also from fluff, dust, and pollen! They're irreplaceable for people with allergies.

Got a pet? We can also fit a flap for your beloved four-legged friend!

Electric Blinds & Curtains

Motorised window treatments that simplify your life

Motorised window treatments are revolutionising the way we look at light management. Epitomising comfort, control, and style, motorisation provides the ultimate convenience in maintaining the privacy and controlling natural light.

Control all types of blinds with Somfy

With Somfy®, you can discover automation options for all types of interior blinds. WireFree™, battery, or mains-powered options offer different benefits and price points. You can also choose from a large selection of control options, including handsets, wall switches, timers, or sensors. No matter what your preferred solution may be, Somfy® guarantees ease of use, reliability, and quality.

Silent Gliss curtain tracks

Curtain systems have two important roles, they enhance design whilst managing the light and heat entering a room. Silent Gliss curtain tracks are designed to have outstanding gliding properties, with a choice of systems that can accommodate the lightest to the heaviest of curtains. The wide range of tracks ensures there is a profile design and colour that will fit with any interior design scheme.

Make your life easy with smart blinds

All our products can be controlled automatically by electric gear (by a remote control, application on a mobile device, and/or by a key switch), by voice with Amazon Alexa, Apple HomeKit, Google Assistant. Our products can become a part of a 'smart home' and be integrated into its control system with the TaHoma switch, which can be managed and programmed remotely through phone and/or wireless radio signals. Products connected to 'TaHoma' can be controlled separately or all at once, setting parameters to different scenarios: choosing different programs for working days or rest days, holidays, winter or summer.

TaHoma

With TaHoma®, you can control your blinds and curtains at the touch of a button! The interface is easily accessible over the internet, via a computer, smartphone or tablet. In short, your environment moves with you, so regardless of where you are – in the house, on vacation or at work – you are always at home.

TaHoma and Amazon Alexa, Apple HomeKit, Google Assistant

Control all blinds and curtains just with your voice! When you give Alexa, Apple HomeKit, or Google Assistant command, it's passed to TaHoma switch, which then communicates with your motorised windows products. Amazon Alexa, Apple HomeKit, Google Assistant are built in the cloud, so it is always getting smarter. Ask Alexa, HomeKit, Assistant to play music, check the weather, and now, control your Lex Blinds window treatments.

So, are you ready to find that ideal product for your home
and experience exceptional customer service?
